The following is an examiner's statement of reasons for allowance: The prior art taken as a whole neither teaches nor renders obvious the combination including an extension joined to the outer race and projecting axially beyond the raceway of the outer race with a first wear ring carried by the extension on the outer race axially beyond the raceway of the outer race and having a wear surface located at a steep angle with respect to the axis, the second wear ring having a wear surface located at a steep angle with respect to the axis and contacting the wear surface of the first wear ring, and the wear rings being slightly larger than the envelope formed by the rolling elements around the inner race; "slightly larger" being defined in the specification at page 6, line 2. Additionally, the prior art taken as a whole neither teaches nor renders obvious the combination including an outer race having an extension that is located axially beyond its raceway, a first wear ring carried by the extension of the outer race, a second wear ring supported by the second member and contacting the first wear ring, the seal being larger than the envelope formed by the rolling elements around the inner race.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
